A parents Guide To Accelerated Reader (AR)

What is Accelerated Reader?

AR is a chance for your child to read a book of their choice and then complete an online comprehension quiz.

It is a fun and enjoyable way to extend their reading ability and vocabulary.

Your child has the chance to become a word millionaire, win prizes for good progress and learn to read with confidence.

All our yr8 pupils have been 'star' tested to determine their reading level.

This is their Zone of Proximal Development (ZPD) and our school library has been organised so that pupils can easily find books appropriate to their ability.

Who will be our first word millionaire?

Log in From Home

To take a quiz or to monitor your child's progress:

<https://ukhosted16.renlearn.co.uk/2235529>

And enter the username and password that has been given to your child in school.

AR BookFinder is an online book searching tool to help you identify appropriate books that are available in our school library.

There is a link on the school website:

www.dcpni.net / [Contact Us](#) / [Dominican Links](#)

How can I Help?

Encourage your child to read at home and read aloud to parents and siblings.

Question their understanding of any book they have finished.

Visit your local library.

Encourage your child to take a quiz within 24 hours of finishing their book so that the content is fresh in their mind.

Accelerated Reader quizzes can be taken on computers, laptops, tablets, and through the AR Student App for Apple iOS® devices.

Libraries Ni have labelled their book stock with AR reading levels and we will be working with Portstewart Library to ensure pupils have the best books available to read.
